

135 Series

Snap- In Handles

Product Overview

The Snap Handle Series is an ideal product for the metal fabrication industry where flush fitting and easy installation is required. Manufactured from ABS plastic and available in two sizes, the handles offer low installed cost plus minimal internal protrusion due to their low internal profile and is suitable for panels up to 1.2mm.

Features

- Available in black and custom colors
- Available in two sizes
- Simple snap-in installation
- Low profile and flush fitting

Benefits

- Can be manufactured to suite your
 - Offers options in to suit your needs
