The Accuride load ratings shown below represent a wide range of typical applications and take into consideration factors which can adversely affect the performance of a slide.

In general, slides installed in drawers that are wider than they are deep, are subject to lateral (side) stresses that reduce their load carrying capacity. Likewise, slides in applications that are cycled frequently also carry a lower load rating.
Please use the following information to determine the load rating of model 9301 as it pertains to its intended application.

150 lb . [68 kg.] load rating
Load rating is based on an 18 " [ 457.2 mm ] slide in a 32 " [ 812.8 mm ] wide drawer, cycled 10,000 times. Use anywhere side space is limited.

CAUTION: This slide must never be used as a pull-out step, platform or any other application supporting human weight as injury may result.

## Side Mounting

With the slides fully extended, install cabinet member (outer member) with customer supplied 1/4" hex-head or pan head [M6 Euro] screws through the horizontal slots. Be sure slides are parallel. Attach drawer to extended inner member with customer supplied $1 / 4$ " hex-head or pan head [M6 Euro] screws through the vertical slots. Leave all screws loose for final adjustment. Adjust slide position until movement is smooth. Tighten all screws and if necessary, use more screws to secure slides and complete installation. See Figure 1.

## Flat Mounting

Position large slide members on cabinet floor as shown in Figure 2. Make sure slides are parallel. Ensure slides are flush with edge of drawer bottom. With the slides fully extended, install cabinet member (outer member) with customer supplied 1/4" hex-head or pan head [M6 Euro] screws through the horizontal slots and secure in place. Install customer supplied $1 / 4$ " hex-head or pan head [M6 Euro] screws through vertical slots into the bottom of the drawer. Leave all screws loose for final adjustment. Adjust slide position until movement is smooth. Tighten all screws and if necessary, use more screws to secure slides and complete installation. See Figure 2.

## Optional Platform Bracket Kits

Brackets provide four bottom-mount and two side-mount options. For bottom-mount, one bracket attaches to the slide outer member and the cabinet base. The other bracket attaches to the slide inner member and the platform or tray. For side-mount, the bracket attaches to the slide inner member. See Figure 3 for examples of both mounting options. When the brackets are used either individually or in combination, they will accommodate all slide lengths. Each kit contains two brackets, four $1 / 4$ " hex-head screws, and four $1 / 4$ " hex nuts with lock washers. See separate platform bracket data sheet for more information.
