

Model 01V BH - Bridge Handle

Below you will find the standard version of this product which is suitable for most applications. However all our products can easily be produced in different moulding materials (including ABS, polypropylene or different levels of glass filled nylon), with different insert materials (such as stainless steel, brass, alloy or various zinc plating) and with non-standard thread lengths and/or sizes. The MOQ for most modifications is only 300 pieces so please feel free to contact our Sales Team, who will be happy to advise and quote for exactly the product you need.
