

Floormarking symbol T and L - High performance adhesive

In industrial environment, space is precious, it is essential to optimise and organize it. For proper operation and better safety, storage areas must be demarcated, dispatch areas optimised, production areas signposted and flows identified.

Technical characteristics

Size T: 50 x 150mm

Size L: 50 x 100mm

Thickness: 350 µ

Product benefits

- Quick, easy mounting.
- Long-lasting bond over the symbol's full surface (full bond after 48h).
- Optimal thickness/resistance ratio (350 µ) for high volume traffic (handling vehicles, warehouse forklifts...).
- PVC resistant to chemical products, abrasives, moisture.
- Easy to clean with usual cleaners. - Five shapes (two "L"s form a cross) for a simple and effective message.
- Four colours (only yellow for footprint) to create thematic areas.
- Extra-strong adhesive, non-solvent, non-toxic and environmentally friendly.
- Made in Denmark
- CE standard certified adhesive.
- No tear-off when removing - Leaves no residue - 350µ thickness allows no see-through and offers a perfect contrast.

Symbols Tarifold Pro are designed for:

- Identification of storage and dispatch areas.
- Precise visualisation of pallet, machine, stock locations.
- Optimisation of LEAN management, 5S, KAIZEN.
- Marking of internal traffic flows and pedestrian areas.
- Reinforcement of evacuation areas.
