

Lashing Rail Rounded Edges 224-2000

All aluminium lashing rails have a raster of 25mm. That means you can use any lashing bail, depending on the load requirement.

The lashing rails can be strained with up to 2.500daN (kg), the effective load capacity depends on the lashing bails from 300 to 2.000 daN(kg).

Size: 2000 x 50 x 11,5 mm

Material: Aluminium

Weight: 1.42kg / rail

Large range of fittings/ bails available

Easy Fixing of all fittings

Weight rating depends on the fitting/ bail used
