

CM Cam Locks

Selection

- Removable core options provide maximum flexibility
- Fixed core options provide simple, economic solutions
- Sealed housings are available
- Multiple finishes
- A broad selection of lock housing and cam sizes available

Notes

All CM Cam Lock housings, cams, and lock core components can be ordered separately for maximum configuration flexibility with minimal inventory investment.

To determine the perfect CM Cam Lock components for your needs, simply follow the **Selection Guide** on the next page.

Cam Lock Options

Removable Core

- Multiple key codes
- Tool actuation
- Change key codes in future
- Configure to order

Non Sealed CM-6

CM Cam Locks Selection

163

Cam Lock Selection Guide

1. Once you have determined the **CM Cam Lock** version that best meets your needs, calculate the **Cam Grip** for your application using the illustration below.

Notes: add 0.5 (.02) to your grip when using a sealed product.

2. In the **TAN** section below, locate the **Cam Grip** calculated for your application. If your grip falls between two values, use the higher value.

Notes: Certain grip values repeat in the table below. Use the value that results in the shortest housing possible based on the **Max. Door Thickness** allowed.

3. From this value, move right horizontally into the **GRAY** section and verify your door thickness falls within the **Max. Door Thickness** listed. Once this is verified, the housing length is selected and is illustrated by the **Housing Length Number**.

4. Returning to your original grip value in the **TAN** section, move down vertically into the **GREEN** section. The **GREEN** section illustrates the cams that are appropriate for your grip.

5. By determining the required cam orientation and length in the **BLUE** section, the appropriate **Cam Part Number** for your application is selected.

6. Proceed to the Cam Lock sections (CM-6, CM-3, CM-2, CM-5, and CM-1) to complete your **Part Number** selection.

Selection Guide

Cam Grips							Max. Door Thickness	Housing Length Number
20.7 (.81)	17.5 (.69)	14.3 (.56)	11.1 (.44)	8 (.31)	4.8 (.19)	1.6 (.06)	2.4 (.09)	7
25.4 (1.00)	22.2 (.88)	19.1 (.75)	15.9 (.63)	12.7 (.50)	9.5 (.38)	6.4 (.25)	7.1 (.28)	1

CM Cam Locks

Cams & installation

167

Installation Notes

1. Place sealing washer onto housing (if included) and put through the mounting hole (see panel preparation).
2. Install mounting nut and tighten to 5 N·m (44 in·lbf).
3. Install cam to assembly. Properly orientate for rotation and grip.
4. Install screw. Tighten to 4 N·m (35 in·lbf).

Material and Finish

Cam: Steel plated

Part Number Selection
