Accuride®

9308 EZ-RELEASE KIT

The 9308 EZ-Release Kit is a drawer-release system that lets users open locking drawers or compartments quickly and single-handedly. For use with pairs of 9307E, 9308E, 9327E, and 9328E, or in combination with 9301E or 9308-E5. This product is covered by U.S. and various foreign patents issued or pending.

Finishes	Anodized aluminum and polymer
End Cap Height	3.0" [76.2 mm]
End Cap Width	1.5" [38.10 mm]
Bar lengths to accommodate drawer widths up to:	16", 18", 24", 30", 36", 48", and 60" [406 – 1525 mm]
Hardware	(6X) #10-32 x ½″ pan head screws and (6X) lock washers (included*).
Optional	Right hand key-lock.

* NOTE: Provided hardware accommodates up to 1/4" drawer thickness.

EZ-Release Installation Instructions

Once the Accuride slides and drawer are installed (slides not included), follow the instructions below to install the EZ-Release Kit.

Before you get started, review the part list shown in below.

Parts List

| No	Part Description	Qty
1	Drawer, not included	1
2	9308/9301 Accuride Slide Series, not included	1
3	9308 Accuride Slide Series, not included	1
4	#10-32 Machine screw	6
5	#10-32 External-tooth lock washer	6
6	Aluminum bar	1
7	RH End Cap	1
8	LH End Cap	1

DETAIL A

Drawer Installation

First, drill 0.20 diameter (Ø 13/64") mounting holes on the drawer front, as shown on Figure 1.
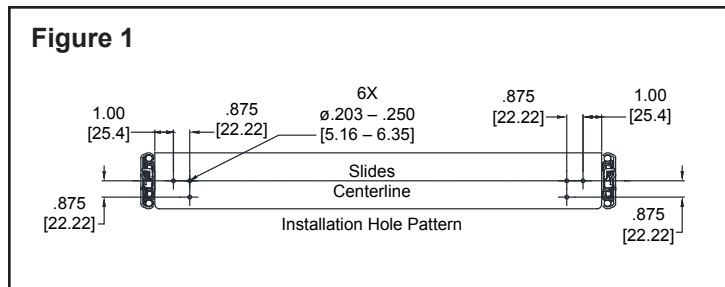

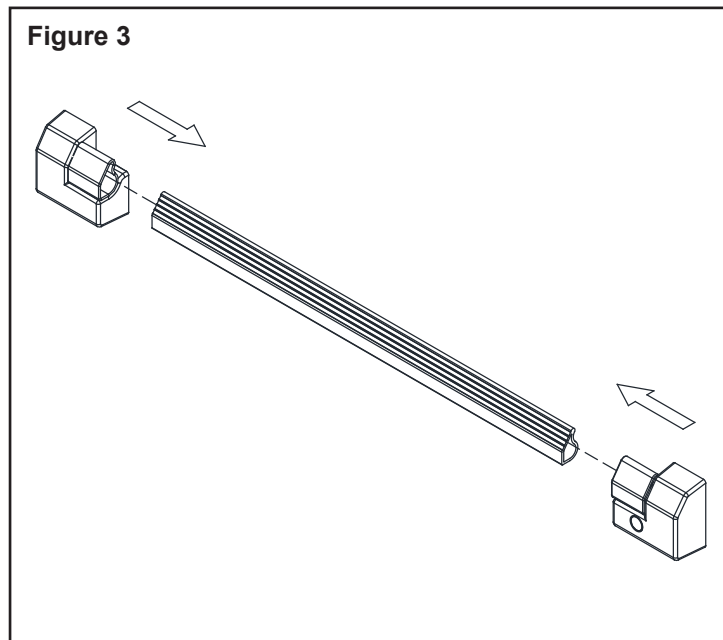

Figure 1

Bar Length

Cut the bar to length. The cut length is 3" shorter than the outside drawer width.

See Figure 2. For example: For a 16" drawer you will order EZREL-16 Kit (non-locking part number), no cut required. However, if you have a 12" drawer, you would order EZREL-16 Kit but then cut the bar 3" less than the measured drawer width. Same process applies to other non-standard drawer widths.
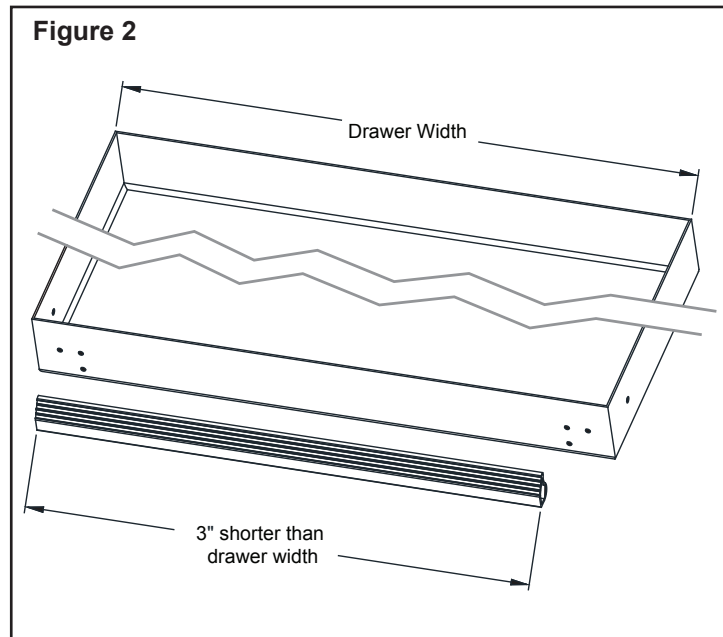

Figure 2

Fully insert the RH & LH end-caps to the ends of the bar after cutting it, remove any burrs from the cut end. See Figure 3.

Figure 3

Attach the whole system to the front face drawer using #10-32 pan head screws. See Figure 4.

DETAIL B

Drawer
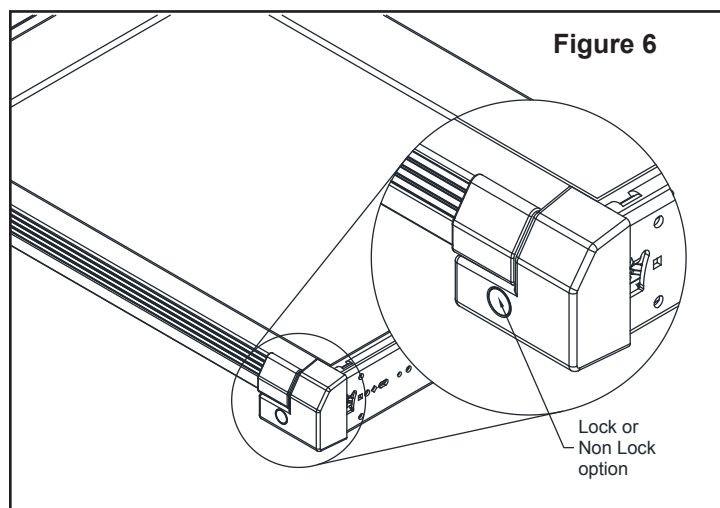

⚠ **The hardware provided is for up to ¼" drawer thickness, longer mounting screws (not included) are required for thicker drawers. Screws should not be more than 3/8" longer than the drawer thickness. All screws should be installed before tightening.**

Rotate the bar inward to release. See Figure 5.

Figure 5

Rotate the bar to unlock the slides and open the drawer
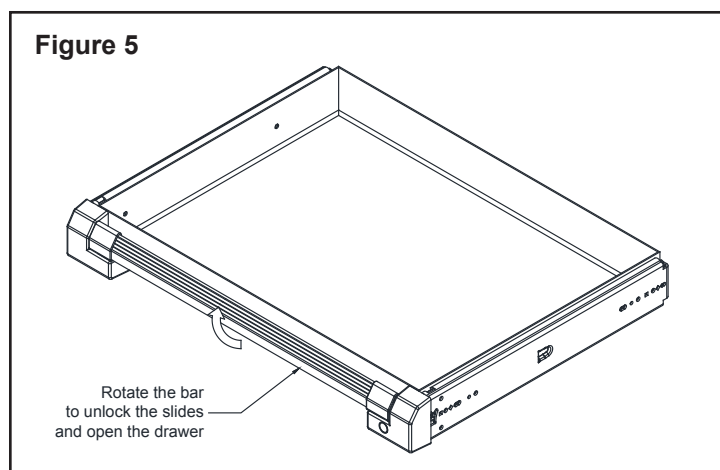

Option available for locking or non-lock on right hand (RH) end cap. See Figure 6.

Lock or Non Lock option

Ordering Instructions

To order the 9308EZ-Release Kit Specify the following:

D pack: The kit includes aluminum bar, two end caps, six mounting screws and six lock washers with a technical sheet.

Without Lock	With Lock	Drawer width
EZREL-16D	EZREL-16LOCKD	16" Max
EZREL-18D	EZREL-18LOCKD	18" Max
EZREL-24D	EZREL-24LOCKD	24" Max
EZREL-30D	EZREL-30LOCKD	30" Max
EZREL-36D	EZREL-36LOCKD	36" Max
EZREL-48D	EZREL-48LOCKD	48" Max
EZREL-60D	EZREL-60LOCKD	60" Max

P pack: Each component is order separately. Hardware is not included with end caps.

Bar Part Number	Drawer width
EZREL-BAR16	16" Max
EZREL-BAR18	18" Max
EZREL-BAR24	24" Max
EZREL-BAR30	30" Max
EZREL-BAR36	36" Max
EZREL-BAR48	48" Max
EZREL-BAR60	60" Max
EZREL-BAR120 (Full length)	120" (not associated to drawer width)

End Caps	Description
EZREL-CAPRB	Set with right cap lock
EZREL-CAPNB	Set with no lock

Specifications

Bar: Aluminum

Mounting brackets: Aluminum

End Caps: Polymer
