

Quick-Release Wire lock pins - Square

Material: Low carbon steel, zinc plated
Wire loop: Hard drawn MB spring wire.

Available in stainless steel on request. MOQ's may apply.

Quick-Release Wire lock pins are like having pin and cotter in one secure assembly! The wire loop is pulled over the end of the pin to lock it in place or remove it. As a one-piece quick locking pin, Wire Lock Pins eliminate cotter pin loss and fit most Quick-Release applications. Steel Lanyards or Nylon Lanyards may be added as a low cost tether to prevent loss. These quick locking pins do not require cotter pins and are faster to use than clevis pins and cotters.

Quick-Release Wire Lock Pins are also known as PTO Pins, Snapper Pins, Hitch Pins and Quick Pins. For an easy to use alternative, please also see Tab Lock Pins.

Part Number	Basic Shank Diameter [in]	Pin Length - B [in]	Effective Length - C [in]	Loop Clearance - E [in]	Material
WIRE-2SQ	1/4	2.000	1.750	1.562	Zinc Plated Steel
WIRE-3SQ	5/16	2.750	2.500	1.750	Zinc Plated Steel
